Brief History

1991 Meeting of NCIMS

- ⚡ Appendix N (28th Anniversary)
- ⚡ Revisions to Procedures Document
- ⚡ New Definitions Added to PMO
- ⚡ Third Party Database
- ⚡ Committee Designed
- ⚡ Oklahoma & New York Tested Design
- ⚡ All States Reported in 1995

Our friends and colleagues Al Place and Dr. Ginger Levin guided the process.

Web Based Data Reporting

Over the years GLH has provided several data collection/submission applications. As of March 2015 all previously supplied data collection tools are obsolete and should not be used. All data providers should use the web application unless other arrangements are made with the Data Base Administrator, such as email.

- Demo application instructions. Use this for training!
- Web based data reporting instructions.

2019 NCIMS Conference

The 37th National Conference on Interstate Milk Shipments will be held April 26 - May 1, 2019 in St. Louis, Missouri. NCIMS web site.

NMDRD

Welcome to NMDRD.
Please select from the menu on your left.

The National Milk Drug Residue Database is a voluntary industry reporting program. Mandatory reporting is required by State regulatory agencies under the National Conference on Interstate Milk Shipments (NCIMS). Data are reported on the extent of the national testing activities, the analytical methods used, the kind and extent of the animal drug residues identified, and the amount of contaminated milk, including whether it was disposed of properly for non-human use. The system includes all milk, Grade A and non-Grade A, commonly known as manufacturing grade. Data reported to the National Milk Drug Residue Database are for educational and analytical purposes and are not intended or suitable for regulatory follow-up.

Things To Remember

- ✘ All data must be submitted to GLH, Inc. by December 1 following the end of the Fiscal Year to meet the GLH, Inc. report delivery deadline of December 15.
- ✘ We rely on the data administrator for accurate data. Please check before submitting; especially, if a different data entry person is involved.
- ✘ When the drug code list is revised, distribute the entire list to data reporters.
